

## **Contents**

<b>Preface</b>	xi
<b>International Scientific/ Advisory Committee</b>	xii
<b>Keynote Papers</b>	
Expansive Behaviour of Sulphate-Bearing Clays <i>E.E. Alonso, I.R. Berdugo</i>	477
On Swelling Behaviour of Clays <i>A. Sridharan</i>	499
Geotechnical Problems Related with Loess Deposits in Northern France <i>P. Delage, Y.J. Cui, P. Antoine</i>	517
<b>Swelling-shrinking Soils</b>	
Effect of Shrinking and Swelling on Microstructures and Fabric of a Compacted Bentonite-Sand Mixture <i>S.S. Agus, T. Schanz</i>	543
Engineering Behavior and Mechanism Analysis of Guigang Red Clay in the Drying Process <i>L.W.Kong, A.G.Guo, Y.W. Zhao, G.S.Liu</i>	551
Study on CBR Strength Characteristic and Swelling-shrinkage Behavior of Expansive Soils <i>L.W.Kong, A.G.Guo, S.X. Chen, G.S.Liu</i>	557
Ground Deformation Monitoring of Areas Characterized by Swelling/Shrinking Clays <i>C. Meisina, F. Conconi</i>	567
Characterization of an Expansive Marl of the West of Algeria <i>F.M. Derfouf, N. Abou-Bekr, S. Taibi</i>	577
Assessment of Seasonal Effects on Engineering Behavior of Chemically Treated Sulfate Rich Expansive Clay <i>L.R. Hoyos, A. Laikram, A.J. Puppala</i>	585
Evaluating Effects of Compaction Characteristics on Swelling Pressure of Compacted Clays <i>I. Ashayeri, S.S. Yasrobi</i>	593

Effective Stress Nonlinear Model Parameters and Simulation of Stress-strain for Expansive Soil <i>S.A. Mofiz, M.A. Sobhan, D.C. Sarker, M.M. Rahman, M.R. Awall</i>	603
Swelling Characteristics of Al-Khobar Marl, Eastern Saudi Arabia <i>S.A. Aiban</i>	613
The Change of Lateral and Vertical Swelling Pressures with EPS in the Bentonite Additive Siran Clay <i>S.B. İközler, M. Aytekin, E. Nas</i>	621
Atomic Force Microscope Study of Montmorillonite Clays <i>A. Frydman, S. Frydman</i>	631
Preliminary Study on the Swelling/shrinking Property of Taiwan Lateritic Soil <i>M.W. Gui, H.A. Chu</i>	639
Effect of Water Content - Dry Density and Additive Materials - Curing Period on Swelling Potential of Clay Soils <i>M. Çetin, I. Zorluer, Y. Güney</i>	647
Effects of NaCl Solution on Free Swelling Behavior of Compacted Clays <i>M. Biglari, S.S. Yasrobi</i>	653
Evaluation of the TEX – 124 – E Heave Prediction Method using Model Footing <i>W.S. Abdullah, M. Jundi, F. Nabulsi</i>	663
<b>Collapsible Soils</b>	
High-strength Geogrids Bridging a Sinkhole: First Project Including Renewed Sinkhole Activity <i>D. Alexiew</i>	675
Analysis of Shallow Footings in Riyadh Limestone with Solution Cavities <i>H. A. Alawaji</i>	685
Kerman Collapsible Soils: Identification <i>M. Momeni, A. Shafiee</i>	693
Collapse Behavior of Compacted Gravelly Clays in Hydro-compression Tests <i>M. Jahanandish, S.M. Binesh, M.M. Ali</i>	699
A Comparison of Collapsing Soils from Australia and Thailand <i>D.A. Cameron, R. Nuntasarn, W. Gasaluck</i>	705
Laboratory Investigation of the Collapsibility of a Clayey Spoil Heap Soil <i>V. Herbstová, J. Boháč</i>	715
Tilting of 11-Storey Building Due to Hydro-collapse of Cemented Carbonate Sand <i>N. Dipova</i>	723

Field Model Footings on Gypseous Soil <i>N.K.S. Al-Saoudi, N.B. Salih, A. Merza</i>	731
 <b>Remediation and Construction Methods</b>	
Influence of Composition of Clayey Soils on their Engineering and Cement Stabilization Parameters under Soaked Conditions <i>E.I. Stavridakis</i>	739
Field and Laboratory Experience with the Construction of Embankments on Organic Soils <i>A. Szymanski, W. Sas, A. Drozd, E. Malinowska</i>	747
Geotechnical Solutions in Complex Ground and Groundwater Conditions for a High-rise Building in Frankfurt, Germany <i>H. Quick, U. Arslan, K. Keiper, S. Meissner</i>	757
Cliff Stabilization in Turbidite Deposits: Remediation Works of the Slope under the Ancient Bell Tower of the Fiorenzuola Di Focara Town <i>A. Lembo-Fazio, S. D'Ambra</i>	765
Construction of Road Foundations on Soft Ground using Lightweight Tyre Bales <i>M.G. Winter, P.E. Johnson, J.M. Reid</i>	775
Effects of Ph and Duration on the Electro-osmotic Treatment of Dispersive Soils <i>J. Sadrkarimi</i>	785
Analytical Approach to Determine Long-Term Creep Behaviors of Geosynthetic Reinforcements by Strain Compatibility <i>H.Y. Jeon, J.J. Yuu, J.Y. Lee</i>	793
A Few Examples on the Alteration and Remediation Techniques of Problematic Soils using Geosynthetics in Geotechnical Engineering Applications <i>H.R. Yılmaz, P. Aklık, T. Eskişar</i>	801
Stabilization of Expansive Soils using Aggregate Waste, Rock Powder and Lime <i>G. Yeşilbaş, E. Çokça</i>	809
Stabilization of Expansive Soils of Bursa (Turkey) Region Highway Fills using Fly Ash <i>M. Mollamahmutoğlu, Y. Yılmaz, A.G. Güngör</i>	817
The Behaviour of Some Engineering Structures in a Geologically Complex Formation <i>E. Conte, G. Dente, A. Troncone</i>	825
Design and Performance of a Deep Excavation in Problematic Schist Soils <i>M.S. Nalçakan, M. Vardar</i>	833
The Stabilization of Expansive Clays with Drinking Water Treatment Sludge <i>Z. Angın, A. Angın</i>	841
The use of Lime and Sand in Stabilization of Calcareous Soils <i>H. Katebi, A. Aysen</i>	849

Soft Ground Improvement by Vertical Rigid Piles-Two-dimensional Physical and Numerical Modelling <i>O. Jenck, D. Dias, R. Kastner</i>	857
Lime Stabilization and its Effects on Road Cross-section <i>A. Kavak, E. Keskin, C. Yilmaz, U. Mutman</i>	865
A New Concept of Geotechnical Composite System <i>E.A.M. Osman</i>	875
Implementation of the Electrokinetic Processes as an Effective Method for Soil Improvement <i>W.S. Abdullah, A.M. Al-Abadi</i>	885
Improvement of Soft Clay Characteristics using Sand Cushion Reinforced with Shredded Waste Tire <i>F.A. Hassona, M.A. Hassan, N.A. Marei, M.D. Hashem, A.A. Ali</i>	895
Embankment on Soft Clay Supported by Geogrid and Piles-A Pilot Scale Field Test <i>E.C. Shin, S.H. Lee, B.M. Das, C. Atalar</i>	905
Lime Enhanced Electrokinetic Treatments to Modify the Properties of a Saline-Sodic Soil <i>S. Jayasekera, S. Hall</i>	913
Water-Borne Polymers as Stabilizers for Sandy Soil <i>S.W. Abdalla, A.S. Al-Khanbashi</i>	925
